EDUCATION

Government College of Engineering

Bachelor of Technology in Computer Science

Nagpur, MH

Sept. 2024 – June 2027

Government Polytechnic

Diploma in Information Technology (93.60%)

Nagpur, MH

July 2021 – June 2024

EXPERIENCE

Full Stack Developer Intern

Procohat (Paid Internship)

Nov. 2025 – Present

Onsite

- Developing end-to-end features using Next JS , Supabase and integrating secure, scalable API services.
- Building responsive UIs and optimizing database efficiency in an agile development environment.

Technical Team Associate

GDG on Campus GCOE

Sept. 2024 – March 2025

Nagpur, MH

- Engineered scalable web apps using Next.js and Appwrite; managed tech for 200+ hackathon participants.

DevOps Intern

Informatrix LnTd

March 2024 – Aug. 2024

Nagpur, MH

- Optimized system performance via Load Balancing, LVM partitioning, and Docker containerization.

PROJECTS

GitHub Auto-Heal | React, Node.js, Groq AI (Llama), Supabase, GitHub API

- Built an AI-powered CI/CD healing system that detects failed GitHub workflows and analyzes logs.
- Automates fixes by creating branches and Pull Requests with AI-generated patches to reduce downtime.

Hostel Admin Automation | React, Node.js, MongoDB, Express

- Developed a management system to automate room allocations, fee tracking, and complaint redressal.
- Digitalized manual records, reducing administrative overhead by 40% for hostel wardens.

Surajya (Decentralized Governance) | Solidity, Blockchain, React

- Created a transparent platform for reporting local community issues using immutable blockchain records.

FoodFor Hope (AI Logistics) | A* Algorithm, Node.js, MongoDB

- AI system for food banks that optimizes volunteer delivery routes and monitors food shelf-life.

ACHIEVEMENTS & HACKATHONS

Enigma-25

- 1st Position – Created an app that real-time detects and stores vehicle number plates in traffic.

Hackathonix

- Built an BlockChain Based Document Verification that won 2nd place Among 90+ teams.

VNIT-Hack-A-Thon

- VNIT Hackathon Where top 20 Finalist Among 900+ participants Are Selected Idea was FoodForHope.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, PLSQL, Solidity, Shell Scripting

Frontend/Backend: React, Next.js, Node.js, Express, Django, Supabase, Firebase

Database/Cloud: MySQL, MongoDB, Docker, Linux, CI/CD, Load Balancer, LVM

Fundamentals: DSA, DBMS, AI Models, Git/GitHub, Postman, System Design
